

Day trip to Scott Turner ice cave (7hrs)

We pick you up at your hotel by car, and drive through the historical Adventdalen (10 km) to our kennel in Bolterdalen. Here you will get what you need of warm clothing and winter boots + headlamps for the ice cave. All necessary instruction for safe travel with your dog team will be provided. You will be 2 people per dog team (6-7 dogs) and alternate between driving and being a passenger. The dog sled trip goes through the scenic Bolterdalen to the Scott Turner glacier. Here we will anchor our dog teams and visit a large meltwater channel (the ice cave) which is situated approximately 12 km from our kennel. The ice cave has easy access. After the ice cave visit we serve a warm meal, coffee, tea and biscuits. We travel back the same route and will be back in town again around 16:00-16:30.

Price per person 2250 NOK

Minimum age 12 year (younger children on request)

Explore Svalbard with Husky Travellers

½ Day and 1 day excursions:
